

Push Tasks

1. A cube has side length x cm. Write an expression for its surface area.

2. A prism has length l , width w and height h . Write an expression for its surface area.

3. A cylinder has radius r and height h . Write an expression for its surface area.

Push Tasks

13. A cuboid has a square base of side 7 cm and total SA = 238 cm². Find its height.

14. If every edge of a cube doubles, by what factor does its surface area increase?

15. If the radius and height of a cylinder both triple, by what factor does the SA increase?

16. A cuboid has dimensions in the ratio 3 : 2 : 1 and SA = 352. Find the dimensions.

17. A cylinder ($r=3$, $h=5$) has a hemisphere ($r=3$) on top. Find total SA (exclude the join area).
