

Start Tasks

Add or subtract the numerators and keep the denominator the same.

1.

Use the bar to find $\frac{1}{4} + \frac{2}{4}$.

2.

Use the bar to find $\frac{5}{6} - \frac{2}{6}$.

3. $\frac{1}{8} + \frac{3}{8}$.

4. $\frac{5}{9} - \frac{2}{9}$.

Start Tasks

Simplify your answer if the numerator and denominator share a common factor.

5. $\frac{2}{7} + \frac{4}{7}$.

6. $\frac{6}{11} - \frac{1}{11}$.

7. $\frac{3}{10} + \frac{5}{10}$.

8. $\frac{9}{12} - \frac{4}{12}$.
