

Start Tasks

Learn what TSN stands for and what each letter means for a time series graph.

1. What does TSN stand for when analysing a time series graph?

2. In TSN, what does T stand for, and what are its two possible directions?

3. In TSN, what does S stand for?

4. In TSN, what does N stand for?

Start Tasks

Decide which TSN component matches each described pattern.

5. A company's profits generally increase from 2015 to 2020. Which TSN component describes this?

6. Ice cream sales are higher every summer, year after year. Which TSN component is this?

7. A shop's sales drop suddenly for one week because of a burst pipe. Which TSN component is this?

8. True or false: a long-term trend should be described as "positive" or "negative." Explain.
