

Start Tasks

Use the probability scale to describe how likely an event is.

1.

Rolling a 7 on a die

Which word describes this?

2.

Coin lands heads

Which word describes this?

3. What probability value (from 0 to 1) means an event is certain?

4. A fair coin is flipped. What is the probability of landing on heads?

Start Tasks

Use a sample space to find a basic probability.

5.

Face 4

A fair 6-sided die is rolled. What is the probability of rolling this number?

7. A standard deck has 52 playing cards. How many cards are in the sample space?

6.

8. A bag has 3 red counters and 7 blue counters. What is the probability of picking a red counter at random?
