

Practise

Combine bars, then read the modal class of a histogram.

1.

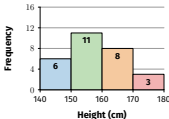

Find the total surveyed.

2.

Football – Hockey = ?

3.

How many are under 160cm?

4.

What is the modal class?

Practise

Read percentages from a pie chart, and values from a pictogram.

5.

Walk
Bus
Car

What percentage of students walk to school?

6.

Walk
Bus
Car

What percentage travel by car?

7.

How many books were read on Wednesday?

8.

Which day had the most books read?

Practise

Reason about samples, censuses, and display types without a diagram.

9. Why might a survey use a **SAMPLE** rather than a **CENSUS** of an entire population?

10. True or false: a bar graph's bars touch with no gaps, like a histogram. Explain your answer.
